

TINASHE TOTO

+1 672-971-8076 | ttoto@my.bcit.ca | Portfolio: <https://tinashetoto.com>

Technical Skills

Languages: Java, HTML/CSS, Python (In Progress), SQL

Frameworks: Bootstrap, Express

Tools: Git, GitHub, Node.js, MongoDB, MySQL, Linux

Personal Projects

Banking System

Aug 2026 – Present

- Building a Java-based banking application supporting account creation, login, and core banking operations
- Applying object-oriented design (classes, encapsulation, inheritance) to structure a maintainable application
- Implementing secure user authentication and account management functionality

GoPlay Web Application

Jun 2026 – Present

- Building a web application that helps users discover nearby sports facilities through an interactive map
- Integrating MapLibre and OpenStreetMap APIs to retrieve and display sports facilities by location
- Managing source control and collaboration workflow using Git and GitHub

Academic Projects

SunBlock Web Application | BCIT Projects 2

May 2026

- Collaborated with a team of 4 to build a web app helping users find shaded areas for outdoor activities
- Built server-side routing and logic in Node.js to connect the application with the database
- Used MongoDB to store and query location and shade data

Thoughtful Food Web Application | BCIT Projects 1

Jan 2026 – Apr 2026

- Collaborated with a team of 3 to build a web app helping users find nearby restaurants during the FIFA World Cup
- Built an interactive Leaflet map to display nearby restaurants and added a Firebase-powered favorites feature
- Created a community posts page enabling users to create and share food-related content

Work Experience

All Purpose Clerk | Safeway – Langley, BC

Sep 2024 – Jan 2025

- Assisted customers with inquiries and resolved issues quickly, improving customer satisfaction
- Worked with team members to identify and clear hazards immediately, maintaining a safe shopping and working environment

Youth Soccer Assistant | Espoir Society – Surrey, BC

Nov 2023 – Jun 2024

- Led drills and demonstrated techniques for youth soccer sessions, giving feedback that improved players' skills and game awareness

Education

Computer Systems Technology Diploma

Jan 2026 – Jan 2028 (Expected)

British Columbia Institute of Technology
