Tools: Git, GitHub, Node.js, MongoDB, MySQL, Linux

Personal Projects

GoPlay Web Application

Jun 2026 – Present

- Developing a web application that helps users discover nearby sports facilities using an interactive map.
- Integrating Map Libre and OpenStreetMap APIs to retrieve and display sports facilities based on location.
- Managing source code with Git and GitHub throughout development.

Banking System

Aug 2026 – Present

- Developing a Java-based banking application that allows users to create accounts, log in, and perform basic banking operations.
- Applying object-oriented programming principles, including classes, encapsulation, inheritance, and methods to structure the application.
- Implementing user authentication and account management functionality.

Academic Projects

Thoughtful Food Web Application | BCIT Projects 1

Jan 2026 – April 2026

- Collaborated with a team of 3 to develop a web application that helps users discover nearby restaurants during the Vancouver FIFA World cup.
- Developed an interactive Leaflet map to display nearby restaurants and implemented a favorites feature using Firebase.
- Implemented a community posts page where users could create and share food-related posts.

SunBlock Web Application | BCIT Projects 2

May 2026

- Collaborated with a team of 4 to develop a web application that helps users locate nearby shaded areas and plan outdoor activities during hot weather.
- Developed server-side logic using Node.js for routes and communication with database
- Used MongoDB as the database to store location and shade data.

Work Experience

All Purpose Clerk

Sep 2024 – Jan 2025

Safeway – Langley, BC

- Assisted customers with inquiries and provided timely service in a fast-paced environment, improving overall customer experience and satisfaction.

- Collaborated with team members to clean spills and remove hazards immediately, ensuring a safe working and shopping environment.

Youth Soccer Assistant

Nov 2023 – Jun 2024

Espoir Society – Surrey, BC

- Supported youth soccer sessions by organizing drills, demonstrating techniques, and providing constructive feedback to improve players' skills and overall game awareness.

Education

Computer Systems Technology Diploma

Jan 2026 – Jan 2028 (Expected)

British Columbia Institute of Technology – GPA: 83%

Extracurricular Activities

- **Tennis** – Regular participation in recreational tennis
- **Drumming** – Practicing regularly to develop rhythm, timing, coordination, and musical technique.
- **Cybersecurity labs** - Completing hands-on cybersecurity labs through TryHackMe, covering networking fundamentals, system security, and practical cybersecurity concepts.
